On behalf of the Kedron School Community, we would like to extend a warm welcome to visitors to our school and web site. Kedron High School is honoured that so many parents entrust the schooling aspect of their child's education to us.

In accepting this responsibility, Kedron, in conjunction with its community, has endeavoured to create a traditional, multicultural, academic, disciplined school of international significance where every individual has the opportunity and encouragement to develop life-long skills.

In order to judge our performance in making this vision a reality, we would invite you to visit the school and talk with our past and present students. They are the best examples we can offer of our success.

If, after careful consideration, you decide to enrol your child at Kedron, we hope that they engage in the depth and breadth of opportunity through the academic, cultural, sporting and citizenship aspects of the school's program.

We hope that the five years they spend at Kedron are full of enjoyment and achievement, rich in experiences and friendships and memories that will last a life time.
